

Carrie

C **F**
Carrie I was lookin' for you
C **Am**
The whole time you were there
C **F**
I didn't see you watchin' me
C **Am**
I didn't think you cared

G
The best of fools will keep up their act
F **G**
After the crowds are gone
G
When the lights are out and clubs are closed
F **C** **G**
They'll laugh in the dark till dawn

Carrie the tears of empty mornings
Are lost in the light of your eyes
You're dealing with a clown too proud to come down
And take off his disguise

He'll be waitin' for the whistle
Of that lonely southbound train
When the memory has faded
But the pain still remains

Carrie what are you doin' here
Waitin' for me tonight
I thought you'd be home with someone you trust
To always treat you right

Everybody knows the story
Nobody forgets their part
But what would you do if I offered you
The key to this joker's heart

Carrie I was lookin' for you
The whole time you were there

October 1974
